

Ancora/Thelen Small Cap Core

Investment Objective

The objective of the Ancora/Thelen Small Cap Core Strategy is capital appreciation. More specifically, we strive to exceed the returns on the Russell 2000 index on a consistent basis over the long haul. Our goal is to produce superior returns while taking below market risk. The strategy may tend to weight either end of the market cap spectrum heavier than the other based on market opportunities.

Investment Strategy

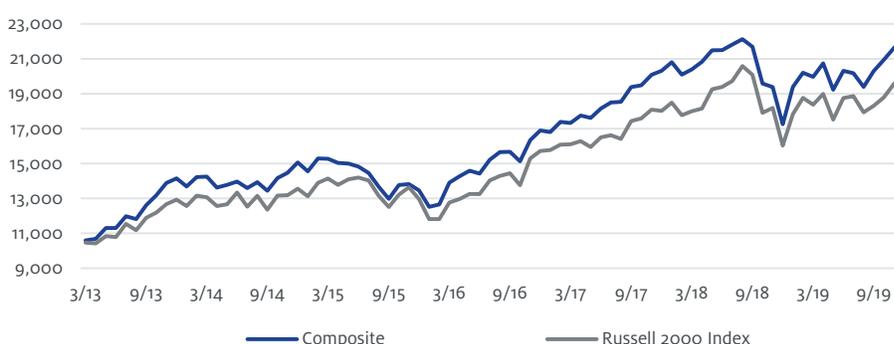

The strategy will typically invest at least 80% of its net assets in the equity securities of small-cap companies. These securities fall within the capitalization range of the Russell 2000 Index. The portfolio manager seeks out stocks that fall into one of three specific categories: underfollowed stocks, franchise stocks whose valuation has fallen for a non-fundamental reason and stocks whose company is undergoing a change to the capital structure of the business (spin-offs, bankruptcies, restructuring, etc.). The strategy will stay broadly diversified across all major market sectors and focus on stock selection (not sector bets) to drive alpha. Stocks will be sold if they fail to achieve our performance expectations or if other more suitable investments are found to replace them.

Investors should consider the strategy's investment objectives, risks and expenses carefully before investing. This and other important information about the strategy can be found in the strategy's GIPS compliant report. Please read the report carefully before investing. Valuations and returns are computed and stated in U.S. dollars. Gross returns are calculated gross of management and net of transaction costs. Net returns are calculated net of actual management fees and transaction costs. Both returns are calculated gross of all withholding taxes on foreign dividends. The composite results portrayed reflect the reinvestment of dividends, capital gains, and other earnings when appropriate. The pooled investment vehicle in the composite calculates net of fees returns net of all expenses including management fees and transaction costs. Composite data is portrayed. Individual account holdings and performance may vary depending on factors including account size, client-imposed restrictions, the timing of client investments, market conditions, contributions, withdrawals and other factors. Policies for valuing portfolios, calculating performance and preparing compliant reports are available upon request. Ancora's investment advisory fees are described in Part 2A of its Form ADV.
