

Ancora/Thelen Small-Mid Cap

Investment Objective

The objective of the Ancora/Thelen Small Mid Cap Strategy is capital appreciation. More specifically, we strive to exceed the returns on the Russell 2500 index on a consistent basis over the long haul. Our goal is to produce superior returns while taking below market risk. The strategy may tend to weight either end of the market cap spectrum heavier than the other based on market opportunities.

Investment Strategy

The strategy will typically invest at least 80% of its net assets in the equity securities of small to mid-cap companies. These securities fall within the capitalization range of the Russell 2500 Index. The portfolio manager seeks out stocks that fall into one of three specific categories: underfollowed stocks, franchise stocks whose valuation has fallen for a non-fundamental reason and stocks whose company is undergoing a change to the capital structure of the business (spin-offs, bankruptcies, restructuring, etc.). The strategy will stay broadly diversified across all major market sectors and focus on stock selection (not sector bets) to drive alpha. Stocks will be sold if they fail to achieve our performance expectations or if other more suitable investments are found to replace them.

The Ancora/Thelen Small Mid Cap composite was created on June 30, 2011 and has the same inception date. The composite contains U.S. traded equities, which typically offers greater return corresponding to greater risk. Securities will tend to be of companies ranging from “micro” capitalizations through “mid” capitalizations. The composite may tend to weight either end of the market cap spectrum heavier than the other, based on market opportunities. The composite intends to stay broadly diversified across industry sectors. The composite utilizes the Russell 2500 Index as the benchmark. The Russell 2500 is a market cap weighted index that includes the smallest 2,500 companies covered in the Russell 3000 universe of United States-based listed equities. The index does not include the effects of sales charges and cannot be invested in directly.

¹To be consistent with Ancora’s ADV filing, as required by the SEC for registered investment advisers, firm assets under management listed in this document reflect the values reported to the SEC. Ancora’s GIPS® assets under management is \$2.80 billion as of September 30, 2018.

Investors should consider the strategy’s investment objectives, risks and expenses carefully before investing. This and other important information about the strategy can be found in the strategy’s GIPS compliant presentation. Please read the presentation carefully before investing. Valuations and returns are computed and stated in U.S. dollars. Gross returns are calculated gross of management and net of transaction costs. Net returns are calculated net of actual management fees and transaction costs. Both returns are calculated gross of all withholding taxes on foreign dividends. The composite results portrayed reflect the reinvestment of dividends, capital gains, and other earnings when appropriate. The pooled investment vehicle in the composite calculates net of fees returns net of all expenses including management fees and transaction costs. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request. Ancora’s investment advisory fees are described in Part 2A of its Form ADV. This document does not constitute the recommendation of Ancora to meet the investment needs of any individual client. It does not take into account any specific investment objectives, financial situations, or particular needs of any specific person who may receive this report. This report is not to be considered investment advice or a recommendation of any particular security, nor is it intended to provide personal investment advice. Investors should seek financial advice regarding the appropriateness of investing in any securities and other investments or investment strategies discussed in this report.
