

Ancora/Thelen Small-Mid Cap

Investment Objective

The objective of the Ancora/Thelen Small Mid Cap Strategy is capital appreciation. More specifically, we strive to exceed the returns on the Russell 2500 index on a consistent basis over the long haul. Our goal is to produce superior returns while taking below market risk. The strategy may tend to weight either end of the market cap spectrum heavier than the other based on market opportunities.

Investment Strategy

The strategy will typically invest at least 80% of its net assets in the equity securities of small to mid-cap companies. These securities fall within the capitalization range of the Russell 2500 Index. The portfolio manager seeks out stocks that fall into one of three specific categories: underfollowed stocks, franchise stocks whose valuation has fallen for a non-fundamental reason and stocks whose company is undergoing a change to the capital structure of the business (spin-offs, bankruptcies, restructuring, etc.). The strategy will stay broadly diversified across all major market sectors and focus on stock selection (not sector bets) to drive alpha. Stocks will be sold if they fail to achieve our performance expectations or if other more suitable investments are found to replace them.

The Ancora/Thelen Small Mid Cap composite was created on June 30, 2011 and has the same inception date. The composite contains U.S. traded equities, which typically offers greater return corresponding to greater risk. Securities will tend to be of companies ranging from “micro” capitalizations through “mid” capitalizations. The composite may tend to weight either end of the market cap spectrum heavier than the other, based on market opportunities. The composite intends to stay broadly diversified across industry sectors. The composite utilizes the Russell 2500 Index as the benchmark, a market cap weighted index that includes the smallest 2,500 companies covered in the Russell 3000 universe of United States-based listed equities. The index does not include the effects of sales charges and cannot be invested in directly. The pooled investment vehicle in composite calculates net of fees returns net of all expenses including management fees and transaction costs.

¹ To be consistent with Ancora’s ADV filing, as required by the SEC for registered investment advisors, firm assets under management listed in this document reflect the discretionary values reported to the SEC. Ancora’s GIPS assets under management \$2.38 billion as of June 30, 2024.
